

Supertif ND/NDH No Drain, Flow Regulated Online Drippers

Operating guidelines

Three raised port outlets:

Conic - matches 2 and 4-way branching adapters

SLB - Straight barbed outlet (2,2, 3,1 lph drippers only), fits 3x5 mm microtubes

SOL - 90° barbed side outlet (1,6, 2,2, 3,1 lph drippers only), fits 3x5 mm microtubes

Available in two models:

Supertif ND (No-Drain):

Sealing pressure: 0,15 bar

Flow rates: 1,1, 2,2, 3,85, 7,8 lph

Operating pressure range: 0,7-3,5 bar

Supertif NDH (No-Drain High):

Sealing pressure: 0,35 bar

Flow rates: 1,6, 3,1, 8,0, 11,0 lph

Operating pressure range: 1,2-3,5 bar

Like the standard Supertif dripper, the Supertif ND (no-drain) and Supertif NDH (no-drain, high pressure) both deliver consistent flow rates for long run lengths and sloping terrain. The Supertif ND / NDH drippers have the self-activating flushing mechanism to provide excellent clog resistance.

The Supertif ND and Supertif NDH drippers have the added feature of built-in no-drain diaphragms, eliminating the draining of water when the system is shut off. The drippers are an ideal choice for pulse irrigation and as master drippers in loop systems.

Supertif ND/NDH No Drain, Flow Regulated Online Drippers

Supertif ND/NDH - Maximum Recommended Drip Line Length (m) on Flat Terrain
